SPOTLIGHT

Mrs. Amy Heath

Mrs. Amy Heath was chosen as this year's female spotlight teacher. Mrs. Heath teaches chemistry and also sponsors the Science Club. She graduated from Granite City High School South in 1983. After graduation, she attended Rockhurst College in Kansas City, Missouri, for three years. She then transferred to Southern Illinois University at Edwardsville, where she received her bachelor's degree in chemistry.

After graduation from college, Mrs. Heath worked as a chemist for four years. She also began to do some volunteer teaching, where she crossed paths with one of her former teachers at Granite City High School, Mr. Ken Gattung. He suggested that she should consider teaching, since she loved chemistry and enjoyed working with kids. Mrs. Heath was inspired by Mr. Gattung and decided to become a teacher. She went back to school, where she received her degree in secondary education.

Mrs. Heath began her teaching career at Cahokia High School, where she taught for one year. She was then hired to teach here, where she has remained for ten years.

"I love teaching. It is much more rewarding than working for a corporation. I receive a pat on the back when students learn and get excited about chemistry," she said.

The seniors would like Mrs. Heath to know how much she is appreciated here at Granite City High School. Mrs. Heath is very enthusiastic about her job and is always willing to help a student in need. Thank you, Mrs. Heath!

TEACHERS

Mr. Al Lobdell

Mr. Al Lobdell was chosen as the seniors' male spotlight teacher this year. He has been a beloved coach and teacher here at Granite City High School for seventeen years. He has been a tennis coach for fifteen years and head golf coach for three years.

Mr. Lobdell attended Southern Illinois University at Edwardsville, where he majored in math and minored in physics. After graduating from college, he decided to pursue

a teaching career. He said he had many good math and science teachers in high school that inspired him to become a teacher.

For many of his students, whom he refers to as "little creeps," physics is one of the hardest classes they will take in high school. Who better to teach it than Mr. Lobdell? He is a great teacher and is always willing to set aside his own time to help a student.

"Mr. Lobdell made class interesting and was always willing to help his students," said senior Leslie Kwiatkowski.

The senior class at Granite City High School would like to thank Mr. Lobdell for his hard work and dedication. His demonstrations were fun to watch, and no one ever knew exactly what would happen - but, as Mr. Lobdell would say, "That's good enough for this class!"

PANORAMIC

Walking across rickety boards... Staring into the void of death... Hoping not to fall into the pit of despair... Pondering your very survival... Seeking the holiest of grails...

Sound like a scene out of *Indiana Jones*? WRONG! It's a scene from the taking of the annual senior panoramic picture.

This year's picture was a horrific blend of sun and heights. Students were packed together, unable to move. Photographers warned that those who did move would be remembered as an image of a giant blur. As the seniors squinted into the blinding sun, photographers also warned against inappropriate behavior, threatening to erase from history those who made one false move.

Bound and broken, the students tried to smile into the glare as the camera swiveled about. Then, it was over. The straight lines erupted into chaos, as students unhappily dispersed to class.

SENIOR

LIZ AND KATIE LLOYD

Liz and Katie Lloyd attended Niedringhaus Elementary School and Coolidge Middle School. They have both been involved in Student Council for four years, and Katie is a member of the pom squad. We asked them if they'd ever tried to take advantage of being twins. Here's their story.

The girls tried to switch places one time, but they were not very successful. One night, Katie had other plans and did not feel like performing with the pom squad. So her sister Liz put on her costume to pose as Katie. Katie told Liz to follow the other girls. But once the music started, everyone knew it was not Katie.

"I couldn't get the turns down," said Liz. "That was definitely the end of my dancing career!"

DOMINIC AND MARCUS PATTERSON

Another set of senior class twins is Dominic and Marcus Patterson. Both of the boys agree that they fight often. Dominic remembers when they were young that their parents would dress them alike. He hated it. Today, no one will see them wearing the same outfit on the same day! In spite of their fighting, Marcus and Dominic do have similar interests, such as video games and shooting hoops.

TWINS

MANDY AND CANDY NONN

Mandy and Candy Nonn are best friends as well as twin sisters. If you have seen this other set of blond twins roaming the halls, chances are you've seen Mandy and Candy (or you're just seeing double, and you should get that checked out).

We asked Mandy what kind of stupid questions people have asked her about being a twin. She responded, "Well, some people ask if we are telepathic, and we always lie. We say, 'Well, yes. We

came from the same egg, didn't we?"

Another story Mandy shared involves good ol' Mr. Puhse, who bragged of his ability to tell the twins apart. To test him, they switched roles for one class, and it took him half of class to figure it out. Some people might think having someone look exactly like you would be kind of weird or creepy, but we think that it's a good thing twins exist.

CRAIG AND REX WRIGHT

GCHS is proud to have its own version of the Wright Brothers, Rex and Craig. Like Liz and Katie, they both attended Niedringhaus Elementary School and Coolidge Middle School. Rex has been involved in Student Council, and Craig has played hockey. They have different interests, and it looks like the boys will graduate without having had one class together in high school.

After

The great Stan Musial, on his accomplishments said, "Do not tell them what you did in the past; tell them what you are going to do in the future."

Imagine yourself twenty years from now, sitting in a quiet spot away from the chaos of your adult life - a place you can go to relax and reflect on the life you have lived. When we were children, the top jobs were police officers, fire fighters, and astronauts. Maybe you know what you are going to do now. Then again, you may not.

At any rate, the yearbook staff asked some graduating seniors this question: Where do you believe you will be in twenty years? Sitting at work on some idle Tuesday? Producing a movie, or even married and happy with a family? The golden years of your youth are behind you, and the road is a long one. We ask again, seniors, where will you be in twenty years?

Ryan Woodson - Nikki Moore told me that I would find the love of my life and that she would cheat on me and break my heart. To console myself, I would have eight different relationships, but I would have a really cool job.

Adam Lancaster - In twenty years, I will be in Hollywood, California, still living in a tent next door to some famous celebrity. I will still be looking for an audition, so I can hit it big in showbiz. Then, I will turn forty and realize I just need to go back to Granite City and live with my parents, while earning some cash fixing broken toilets. I will also still be looking for a girlfriend.

Leslie Kwiatkowski - In twenty years, I will be on my third marriage, living in New York with my dog named Baby.

Graduation

Jason Ayran - I will probably be in first place on the PGA money list. At the same time I will run my own Filippas restaurant. Doug Kim will work for me even though he is Korean. It's okay because we're all the same, you know?

Geoff Schardan - I will be caddying for Jason Ayran on the PGA tour and be the fired chef at his restaurant.

Bryan Topal - In twenty years, Jason Ayran and I will have co-founded the YAAA Topal clothing industry. And I will have enough orange shirts with groundhogs on the back to cover the entire Earth.

Bobby Nemetz - I will have nine kids and have lost all my hair.

Jerana Cassiday - I will be happily married to my very successful and very RICH husband.

Emily Hayes - I will have a successful career as an interior designer and be married to my husband (who will be hot). I will also have lots of money and live on a farm (with no animals).

Brittany Kult - I will be a very successful judge, owning a big house. I will be happily married with three kids and a dog.

EMBARRASSING

Melissa Milton tells this story, "After eating lunch one day my freshmen year, I got up to use to rest room. I went into what I thought was the women's! I was wrong. I wish I could have seen the look on my face when I saw five senior guys in the stalls! I was mortified."

Matt Gergen's experience was painful. "Last year during seventh hour band, we went outside to play duck-duck-goose. Mr. Jakels thought this would be a good way to relieve some of our stress, since we had a band concert that night. James Gauen tapped my head and said, 'goose,' so I chased him around the circle. As soon as I was about to tag him, I tripped over my foot and landed on my left arm. I was taken in a wheelchair back to the school, and my mom had to take me to the hospital."

Jonathon Brooks was also hurt during his embarrassing moment. "One day at school, I was walking down the treacherous, crowded hallway while talking to my good friend Jeremy Davis. Needless to say, I was not watching where I was going. The water fountain seemed to jump out at me and nailed me. Due to the pain, I fell over in the middle of the hallway. Two people tripped over me and fell on the ground."

MOMENTS

Ross Tyler's embarrassing moment happened in English class. "I fell asleep, and I woke up to the sound of my teacher calling my name. She told me to read the next paragraph, but I had drooled in my book and all the words had smeared together!"

Anna Huffaker, like Ross, had a problem in English. "I was in Mrs. Dame's freshmen composition class. I had a bad cold that day and had a cough drop in my mouth. I went up to Mrs. Dame's desk to ask for a pass to use the rest room. As soon as I opened my mouth, my cough drop fell out of my mouth onto the papers she was grading! To make matters worse, the red saliva that surrounded the cough drop splattered everywhere. Later that day, everyone got their papers returned with little red splotches all over them. I was humiliated!"

Corey Lewis's story involved his car. "I was driving home one day after school and was obviously not paying attention. I looked up, and I had crashed into the school bus in front of me, totaling my Sumbird! This isn't the only car that Corey has wrecked. During this year's winter break, Corey totaled his "baby," his Mustang Cobra. It looks like Corey and cars don't go together."

DANCE

What is better than coming into class to do the "Boot Scootin' Boogie"? Nothing! This is why seniors at Granite City High School love senior dance.

Usually taught by Mrs. Linda Hill or Mrs. Terri Papa, Senior Dance is a fall semester class available to seniors and sometimes a few lucky juniors.

In this class, students will learn everything from the fox trot to the cha-cha. Having senior dance is an enjoyable experience that every senior will always remember. Let's dance!

Many people will agree that their hardest year in high school is Junior year. During these hectic nine months of a teenager's life, one must take the A.C.T. exam, begin to visit colleges, and carry a heavy class load, ranging from physics to American History.

Even though this year is by far the hardest scholastically, many students remain actively involved in various sports, clubs and activities. Many juniors also are elected A.L.P.H.A. Peer Leaders this year. These students are chosen based on their character and outstanding scholastic achievements.

As members of this years senior classleave GCHSto embark on their collegeate careers, they will have an excellent group of people to fill in their shoes. Look out for the class of 2004!

Below: Rambunctious sophomores get ready to cheer their hearts out at the first pep rally.

Right: Bruce Miller smiles for our photographers in the cafeteria.

Above: Flocks of sophomores set themselves down, and the feeding begins.

Top: Her adoring fans idolize Lyndsi Meyenburg.

Star Sophomores

Left: Rebecca Thomas hitches a ride from Erin Calbreath.

Top: Megan Gavlick is the superstar in this photo.

Right: Jenna Dummitt and Bridget Curtin tame the star.

Left: Jaleah Arico, Mike Copper, Alex Biver, and Jon Gitchoff prove that it really is fun to stay at the YMCA!!

Below: Alex Kwiatowski is laid back and ready for a night on the town. Boy, is he deceiving himself. (Leslie loves you, Alex.)

Sophomores! Sophomores! Are you ready? READY!

Sophomore year is one of the best years in one's high school career. By this time, sophomores are familiar with the school and know many teachers and students, including upper classmen, from the previous year. However, the classes are not easy. Many sophomores choose to take chemistry and geometry, which are two of the most difficult courses offered here.

We have an exceptional group of sophomores who will be ready to rule the school in 2005!

Left: Shelly Polach, quoting Shakespeare, states matter-a-factly, "Something wicked this way comes."

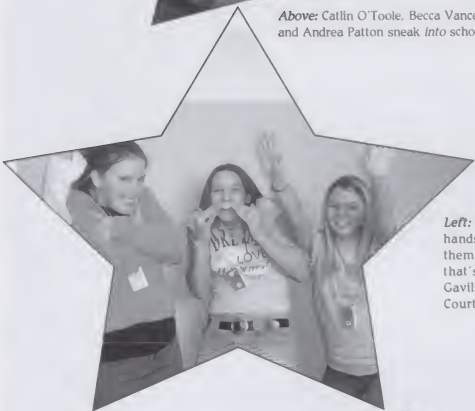

Left Bottom: Katherine Motes, Adam Schofield, Jessica Durgan, and Nathan Baker are star power at its finest.

Right Bottom: Kelsey Roseman, Jamie Davis, Lyndsi Meyenburg, and Becca Vance bond after a long, hard test.

Above: Catlin O'Toole, Becca Vance, Kelsey Roseman, and Andrea Patton sneak into school.

Left: "Sometimes I just stick my hands in my arm pits and I just sniff them...SUPERSTAR!" By the way, that's not Molly Shannon. It's Emily Cavitsky, Olivia Antognoli, and Courtney Jerden.

When returning students heard the 7:25 morning bell in late August, many were in for a big shock, as several hundred freshmen attended their first classes here at GCHS. The huge building, crowded hallways and large classes were overwhelming for many of these freshmen. They had a difficult time finding their classes, let alone arriving to them on time.

However, after the first few weeks of school, many became familiar with the campus and accustomed to the ways of high school. They joined clubs and went out for sports. The future of GCHS is definitely bright with this talented and unique group of young people. We hope your future three years here are significant and filled with many great memories.

Boys Go To State

Epicurus once said, "The greater the difficulty, the more the glory in surmounting it." This saying holds true in many aspects of life, but this story isn't a lecture on life; it is, however, about the boys' soccer team and their surprising run to the state playoffs.

After a slow start the team came on strong, going 8-0-1 at one point down the stretch. Under first-year head coach Barry Grote, they continued the Granite City Warrior tradition with their record seventeenth appearance in the state tournament.

Although they lost a hard-fought match against the Barrington Broncos in Naperville, no one went home with his head down. The boys played their hearts out the entire season and finished as one of the top eight teams in the state of Illinois.

One of the most popular events this year was the Lip Sync Contest (See page 158 for coverage of this event). The Varsity Club also sponsors the annual student-faculty basketball game, which is always a big hit.

The Lady Lunatics - Brooke Atterberry, Denisha Helms, Dominique Vaughan, and Katrina White - perform "Air Force One" and "Bootylicious."

Whoa! Wait a minute! Is that Usher on the stage? Are my ears deceiving me? Do I hear the harmonious sounds of the Jackson 5?

If you heard any of these comments this year, you definitely went to the 2002 Lip Sync competition. Taking pages right out of Milli Vanilli's book, GCHS students competed in all genres of music from hip hop to the classic guitar riffs of "Bad to the Bone." This battle royale of fading was complete with its share of technical difficulties, but the evening became even more fun with an improvisational song by co-hosts Anna Valencia and Katie Hubbard. Altogether, it was a head banging, heart pounding, rip-roaring experience.

Senior Joe Thomas grooved his way into a solid first place finish with his rendition of Usher's "You Got It Bad." Second place went to the younger version of the Ghostbusters: Katie Ivie, Jaime Prazma, Jenna Cassiday, and Sarah Whitecotton. In addition to performing their lip sync, the Ghostbusters also took time out to catch two ghoulish ghosts, played by Eric Brewer and Emily Hayes.

Jenna Cassiday, Katie Ivie, Jaime Prazma, Sarah Whitecotton, Emily Hayes, and Erica Brewer. Who you gonna call? GHOSTBUSTERS!

Deaf Interpreter

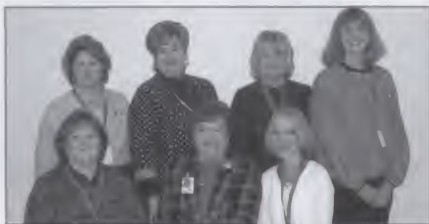

Imagine being born or losing your sense of hearing. Thrust into a world without music, voices, and everyday sounds such as the birds, the gentle din of rain, or your mother nagging at you. Such people need a person to understand them; at this school that person is Ronda Anderson. This is Ronda's 16th year in the district and she has been interpreting since 1979. She says about her job, "It's nice to be able to help people understand. They appreciate the help and that someone takes the time to help them understand. She says she loves working with children and finds it one of the most rewarding jobs she can think of. Her most memorable moment was going to the state wrestling tournament and interpreting for a boy she had helped out the entire season. At the end when the rewards were handed out, she got one as well for her help she had given to the boy. A loss of a sense is a disabling thing; at least someone cares enough to learn a whole new language consisting of hand movements to help ease the loss of hearing for people.

WHEN THEY WERE SENIORS

Donna Burnett Swanson

From Medieval Latin *secretarius* - an officer of an organization or society responsible for its records, correspondence and to manage routine and detail work.

A Secretary is also the hardest worker in any business. Taking messages, handling files, keeping tabs on students, setting up meetings, directing traffic and laying down the office law. Businesses, Schools, and Government would not run as smoothly without them. Just imagine a world where you would have to do everything, every detail that a secretary would normally do. It would make your life ten times harder than it was. Without secretaries, order would not be kept in any office. Chaos would sweep across the nation, you remember Y2K, yea just think about it bud. So the next time you see a secretary salute these people for their effort in making this school as efficient as possible.
